

## Technisches Datenblatt / Technical Data Sheet

**Mischung aus natürlichem Talc und Naturgraphit**  
**Blend of natural talc and natural graphite**

Sorte / Grade

### **SeedFLOW 80/20 - Talc/Graphit Mischung** **SeedFLOW 80/20 Talc/Graphite Blend**

|   | Spezifikationen      | Typische Werte |
|---|----------------------|----------------|
|   | Specified properties | Typical values |
| Talc content  | 75-85 %              | 80%            |
| Graphite content  | 15-25%               | 20%            |
| Median Size<br>(measured by laser diffraction, D50-value) | 8-15 µm              | 10 µm          |
| Bulk density  | minimum 430 g/l      | 460 g/l        |

Authorized signature
